

SELEXIDANT

Vitamin E and Selenium Fortified with Biotin Liquid

COMPOSITION :

Each lt. contains :

Vitamin E	25000 mg
Biotin	1000 mg
Selenium	2000 mg

SELEXIDANT LIQUID is a potent combination of Vitamin E and Selenium fortified with Biotin. Vitamin E is a lipid soluble antioxidant vitamin necessary for many physiological function & plays a vital role in protecting the vascular wall.

SELEXIDANT LIQUID is an integral part of glutathione peroxidase (GSHPX) an enzyme essential for defense mechanism. Biotin is a cofactor for many enzyme involved in the mechanism of nutrients in the body.

SELEXIDANT LIQUID containing Vitamin E and Selenium fortified with Biotin acts in synergy to effectively protect, maintain and boost immunity and productivity in Poultry and Livestock.

SELEXIDANT LIQUID bio synergistically inhibits prostaglandin secretion and increases antibody production to enhance both humoral and cell mediated immunity.

INDICATIONS :

- Helps to maintain muscle strength and stamina in racing Camels.
- To prevent white muscle disease in Sheep & Goats.
- To prevent heart muscle dystrophy in Camel, Calves due to selenium and/or vitamin E - deficiency.
- For Enhanced immune response.
