

ELCINVIT

Vitamin AD3E Liquid

COMPOSITION :

Each ml contains :

Vitamin A, retinol palmitate	20 000 IU
Vitamin D3, cholecalciferol	6 000 IU
Vitamin E, α tocopherol acetate	60 mg

DESCRIPTION :

ELCINVIT is a well-balanced combination of vitamin A, vitamin D3 and vitamin E especially composed for poultry and swine, but can also be used for ruminants. These three vitamins are important for the normal function of the immune and reproduction system. Vitamin A and E are antioxidants, protecting cells against oxidative damage caused by free radicals. Vitamin D regulates calcium and phosphorus metabolism and is essential for the normal development of teeth and skeleton. ELCINVIT is used for animals suffering from vitamin A, D3 and E deficiencies, but for instance also for animals recovering from diseases or animals with problems in reproduction.

INDICATIONS :

ELCINVIT is a well balanced combination of Vitamin A, Vitamin D3 and Vitamin E for Calves, Cattle, Goats, Poultry, Sheep and Swine.

ELCINVIT is used for:

- Prevention or treatment of Vitamin A, Vitamin D3 and Vitamin E deficiencies in farm animals.
- Prevention or treatment of stress (caused by vaccination, diseases, transport, high humidity, high temperatures or extreme temperature changes).
- Improvement of feed conversion.

DOSAGE AND ADMINISTRATION :

No undesirable effects are to be expected when the prescribed dosage regimen is followed.

Calves, Goats and Sheep : 1 ml per 40 kg body weight for 3-5 days.

Cattle : 1 ml per 80 kg body weight for 3-5 days.

Poultry and Swine : 1 litre per 4000 litre of drinking water for 3-5 days.

WITHDRAWAL PERIOD :

None

Feed Additives - Nutritional Oral Liquid
